

COVID-19 JOURNAL PROJECT

HOW IT WORKS

Record how the Corona Virus has affected you daily from written journals, captioned photographs, videos, etc.

WHO SHOULD PARTICIPATE

Everyone! From ranchers, teachers, and health care workers to students, oil field workers, restaurant workers, and business owners. The more participants, the clearer the final narrative.

WHAT TO INCLUDE

Record any changes in your life related to the Corona Virus pandemic. Check our Facebook for sample questions.

JOURNAL LENGTH

Similar projects are asking for 30, 60, and 90 day entries. Longer time frames allow the journal entry to show how the pandemic's affects change over time. Because we want as much information as possible, there is no requirement for length but the longer the better.

SUBMISSIONS

Submissions should be emailed to programs@meeteetsemuseums.org or arranged to be dropped off at the Museum.

The goal of the Covid-19 Journal Project is to share how the Corona Virus has affected the lives of Meeteetse's residents.
